

Capability Statement

Michael T. Jones & Company, LLC

Assembled In America

Core competencies

Started as a sole proprietorship in 1998, incorporated in 2009. We build Industrial Control Panels (ICP) and other electrical assemblies to UL 508A and NFPA 79. Our customers are OEM and other panel suppliers that pass their overflow and quick builds on to us in order to make their scheduled deliveries. Let us help you provide your customer with the quality panel build they expect.

Many of our builds are pre-designed while others are concepts that we have to develop. We maintain a current version of Autodesk Product Design Suite Premium which includes AutoCAD Electrical 2015 for making your layout drawings and schematics.

We can make your Allen-Bradley PLC, PAC programs and HMI applications using Rockwell Software products.

Past performance

Our VFD motor control panels have been installed in HVAC systems at stadiums, prisons, hospitals, schools and office buildings across these United States. We assemble automation control packages for metal forming, lumber, rubber, aluminum, automotive, farming, and food industries. We also designed and built a control to pull down a concrete bridge and record the forces for a university research project.

Since the end users are customers of our customers we will maintain their identities confidential per agreement. We are more than happy to ask our customers to contact you as our reference if needed.

Differentiators

We are a family operated business, our size allows us to be flexible in meeting your needs. While other similar small ICP shops may cut corners to stay profitable, we invest in training, equipment and the quality of our workmanship to promote our success.

Corporate data

- **DUNS: 020807303**
- **Socio-economic certifications: Veteran Owned Small Business**
- **NAICS: 335314, 335999**
- **PSC: 5995, 5998, 5999, 6110, 6150**
- **SIC: 3625, 3629, 3699**
- **CAGE Code: 6QYV2**
- **JCP, DD 2345 Certification: 0070029**
- **Listed UL 508A ICP Shop for USA and Canada: E314071**
- **NSF-ISR, ISO 9001:2008 Certified: C0148584**
- **Accept Credit and Purchase Cards: Yes**
- **GSA Schedule Contract Number: Not currently on GSA Schedule**
- **National Fire Protection Association, members since 1989**
- **IEC, associate member since 2011**
